Municipal Court Records System

About MCRS™ SQL

MCRS™ SQL Municipal Court Records System software was written for the purpose of providing courts the ability of having a program that will track tickets and payments without having to buy more program than necessary. With the additional modules available, **MCRS™ SQL** can add all of the features that make our older **MCRS™** program such a powerful tool, yet distribute the cost over a period of time.

MCRS™ SQL Features

1. New Menu Control (One Click Access)
2. Ticket Numbers can contain any combination of numerical and alphabetic characters.
3. Real-time payment posting.
4. Fast Easy Flexible Inquiry screen
5. Create your own Statuses and Dispositions.
6. Handles duplicate ticket numbers.
7. Quick Scheduling methods.
8. Multiple vehicles allowed.
9. Void Payments, Expunge Tickets
10. Track Multiple Warrants.
11. Multiple Business tracking.
12. Taxes are date oriented for entering old tickets.
13. Fee Types and Amounts are customizable.

Available Modules For MCRS™ SQL

1. **Network Module**
Increase the number of network users who can simultaneously work in **MCRS™ SQL**
2. **Report Viewer/Designer Module**
Allow the clerk to create custom reports
3. **Word Automation Module**
Allow **MCRS™ SQL** to fully automate printing letters and warrants.
4. **Driver's License Suspension Module**
Allows tickets to be imported into the Driver's License Suspension program.
5. **Printable State Reports**
The clerk will be able to print exact state reports with numbers already filled in.
6. **Extended Financial Reports.**
Allow for local and outside bond tracking. Payment plans can be setup.
7. **Handheld Interface Module**
MCRS™ SQL is able to interface with certain handheld electronic ticket writing devices.
8. **Warrant Collections Interface Module**
for collection agencies who need continual updates after warrants have cleared.
9. **Imaging Interface Module** allows a court to archive documents electronically using certain third-party imaging software packages.

Thank you for your interest in **MCRS™ SQL**
